

Cover Letter – Software Developer (Oracle PL/SQL)

Dear Hiring Manager,

I am applying for the Software Developer – Oracle PL/SQL position with over **four years of hands-on experience** delivering and supporting Oracle-based applications in **banking and financial environments**.

In my current role, I design, develop, test, and deploy **SQL and PL/SQL solutions** for enterprise systems, working closely with business users to turn requirements into scalable, production-ready applications. I regularly enhance existing systems, resolve production issues, and provide day-to-day application support while following best practices in coding, testing, and deployment.

My technical experience includes **Oracle PL/SQL, Oracle APEX, RESTful services, HTML, JavaScript**, and **Oracle Forms & Reports**, along with practical use of **Azure DevOps** for version control and development workflows. I have contributed to large-scale banking systems where reliability, performance, and security are critical.

I am a practical developer who values clean code, clear documentation, and teamwork. I would welcome the opportunity to contribute my skills and financial-domain experience to your organization.

Sincerely,

Ayub Miaze

Oracle PL/SQL Developer
