Hiring Manager

Infosys

Dear Hiring Manager,

I am writing to express my interest in the **Database Engineer – Oracle PL/SQL** position at Infosys. with over four years of hands-on experience delivering and supporting Oracle-based applications in banking and financial environments. In my previous position, I successfully designed and developed various application components while collaborating closely with cross-functional teams to ensure that user requirements were met effectively. My problem-solving abilities have allowed me to maintain and enhance existing applications by implementing new features and addressing any issues that arise promptly.

In my current role, I design, develop, test, and deploy **SQL** and **PL/SQL** solutions for enterprise systems, working closely with business users to turn requirements into scalable, production-ready applications. I regularly enhance existing systems, resolve production issues, and provide day-to-day application support while following best practices in coding, testing, and deployment.

My strong communication skills allow me to articulate technical concepts clearly to both technical colleagues and business users. I have a solid understanding of HTML, JavaScript, and jQuery, and I am experienced in **Oracle Application Express (APEX)** and **RESTful Services (ORDS)**. My technical expertise includes **Oracle PL/SQL, Oracle APEX, RESTful services, HTML, JavaScript, and Oracle Forms & Reports**, complemented by hands-on experience with **Azure DevOps** for version control and development workflows. I have contributed to large-scale banking systems where reliability, performance, and security are paramount.

I am excited about the opportunity at Infosys not only because of its reputation for professional development but also for its commitment to fostering a positive learning environment. I look forward to contributing my skills while continuing to grow within your esteemed organization.

Sincerely,

Ayub Miaze
