PROFESSIONAL SUMMARY

Results-driven Oracle Developer with 4+ years of experience delivering enterprise-grade solutions in FinTech and Core Banking environments. Adept at full-cycle software development — from requirements analysis and solution design to implementation, testing, and deployment. Proven expertise in SQL/PL-SQL, Oracle APEX, REST/SOAP API integration, and object-oriented development principles. Passionate about transforming how financial services operate through technology, and eager to bring analytical, structured problem-solving skills to a globally collaborative consulting environment.

CORE TECHNICAL SKILLS

SQL & PL/SQL	Oracle APEX	Oracle Forms & Reports	REST/SOAP APIs
JavaScript	HTML & CSS	Azure DevOps	GitHub
SQL Tuning	API Integration	SDLC	FinTech / Core Banking
System Performance	OOP Concepts	Data Architecture	Process Automation

WORK EXPERIENCE

ERA Infotech BD LTD.

July 2023 – Present

Associate Software Engineer

- Led end-to-end SDLC delivery for Agent Banking and Core Banking platforms, collaborating closely with business stakeholders to define and deliver fit-for-purpose solutions.
- Designed and optimized complex SQL/PL-SQL programs — packages, functions, procedures — powering critical business logic and data pipelines for high-volume banking transactions.
- Architected and integrated secure REST/SOAP APIs enabling seamless CBS transactions and inter-module communication with third-party services.
- Built responsive Oracle APEX interfaces using HTML, CSS, and JavaScript, improving end-user experience across multiple banking modules.
- Drove system performance improvements through indexing, partitioning, and query optimization strategies, reducing processing times significantly.
- Ensured compliance with banking security standards and operational integrity across all delivered modules.

ERA Infotech BD LTD.

May 2022 – June 2023

Trainee Software Engineer

- Contributed to developing new modules for Agent Banking and Core Banking systems using Oracle APEX, SQL, and PL/SQL.
- Successfully migrated legacy Oracle Forms applications to Oracle APEX, improving usability and platform maintainability.

- Gained hands-on experience integrating REST/SOAP APIs and automating data loads using SQL Loader.
- Participated in all SDLC phases, ensuring delivered solutions met security and compliance requirements.

Metro Solution Ltd.

July 2021 – May 2022

Junior Oracle Developer

- Migrated Oracle Forms applications to Oracle APEX, enhancing performance and user experience.
- Implemented PL/SQL stored procedures, functions, and triggers for core business logic and database interactions.
- Contributed UI development using HTML, CSS, and JavaScript for custom application interfaces.

KEY PROJECTS

- **Agent Banking Solutions:** The City Bank PLC, Sonali Bank PLC, NRB, PRIME, Bank-Asia, UCB
- **Core Banking System (CBS):** Palli Sanchay Bank (PSB)
- **eKYC Platform:** Bank-Asia, The City Bank PLC
- **Utility Management System:** Bank-Asia, RANGS AGRO, RANCON
- **Automobiles ERP:** BASCO

EDUCATION

Diploma in Database Design and Development

Dec 2020

IsDB-BISEW IT Scholarship Programme, Dhaka, Bangladesh

BSS in Economics

Dec 2017

National University of Bangladesh, Cumilla, Bangladesh

WHY SYNPUSE

With a deep-rooted passion for the banking and financial technology sector, I am excited by Synpulse's mission to redefine financial services through innovation and collaboration. My hands-on experience with internet and mobile banking systems, Core Banking integration, and third-party API connectivity directly aligns with your project needs. I thrive in collaborative, cross-functional teams and am enthusiastic about contributing to global engagements. I embrace challenges, value growth, and am ready to travel and deliver impactful solutions alongside world-class consultants.
